Renovation leadership recognized

Northern Lights Library System board chair Larry Tiedemann recognized the efforts of renovation project manager Brigitte Sakaluk (left) and her assistant, Patty Mathiot, at the opening dinner of the 2010 Northern Lights Library System Conference.

NLLS 'Continuing to evolve' after 20 years

By VICKI BROOKER
Review Staff

Northern Lights Library System marked 20 years of service to northeastern Alberta at the system's annual conference, with 'Continuing to Evolve' as the conference theme.

Both the anniversary and the completion of major renovations at the system's Elk Point headquarters were celebrated at the opening dinner Thursday night at the Elk Point Arts and Leisure Centre adjoining the headquarters.

NLLS board chair Larry Tiedemann introduced the system's first director, Pat McNamee, and listed those who followed her, Heather West, Kolette Taber, Linda McCallum, Carol Morgan and current director Mircea Panciuk, as well as his own predecessors, Dave McCullough, Jamshed Merchant, Ron Young, Iris English, Marvin Soderberg, Don Gulayec, and Marc Oberg, all who were instrumental in the growth and progress of the system.

"Tonight we are celebrating the end of the construction," Tiedemann said, thanking Minister of Municipal Affairs Hector Goudreau and Minister of Infrastructure Ray Danyluk for their support and the NLLS staff for their hard work and patience during the lengthy project.

"In 2001, Northern Lights moved to their new location in the former Pan Canadian building," Panciuk added. "In 2007, we received approval for a renovation grant from the Minister of Infrastructure, Hector Goudreau. Construction began in 2009, and you will all have the opportunity to tour the results."

Council finalizes animal, alternative energy bylaws

By VICKI BROOKER
Review Staff

Elk Point town council gave final reading to two bylaws at last week's regular meeting, one of them being the subject of debate and revision for much of the summer.

Animal Control Bylaw 686/10 is now in effect and drops the age by which cats or dogs must be licensed to eight weeks. Any person who currently owns a dog or cat over the age of eight weeks, who becomes the owner of such an animal or who takes up residence in Elk Point and brings in an animal in that age range has one calendar month to purchase a license for that pet. Seeing eye dogs, assistance dogs and dogs used for police purposes are not required to

be licensed, and residents age 65 or older do not have to pay a license fee for animals owned by them and residing in their homes. It is up to the owners of pets to provide proof of the animal's age is less than eight weeks in the case of a dispute.

License fees remain the same as in the previous animal control bylaw, but there are some increases in fines. For example, the fine for failure to follow the directions of a police officer regarding an animal is now \$500.

Council also gave final readings to Alternative Energy Bylaw 688/10, following a public hearing at which no written or oral objections were received.

Mayoral, county chairs go to vote

By VICKI BROOKER
Review Staff

The results of Monday's nomination day for Elk Point's mayor and both town and county council are still unofficial, but as of press time, both town and county residents will be heading to the polls on Oct. 18.

Incumbents Bernice Capjack and Dwayne Yaremkevich are back on town council, joined by Eugene Buck and Ron Fraess, and in by acclamation.

Council incumbent Dick Millar will contest incumbent Parrish Tung for the mayor's chair.

September starts with rash of assaults

By Cst. John Spaans
Elk Point RCMP

On Sept. 2 at 9:30 p.m., Elk Point RCMP were notified about an assault that took place earlier in the day. While riding the school bus home from school in Frog Lake, a 15-year-old allegedly assaulted a 15-year-old. The 15-year-old victim was not seriously injured. The 16-year-old suspect has now faced internal discipline at the school.

At 2:35 a.m. on Sept. 2, Elk Point RCMP and Bonnyville EMS attended a residence in Frog Lake after being notified by Frog Lake Security that a female had been assaulted by one of her sons. It is alleged that the suspect punched the victim multiple times after throwing her to the ground. The victim did not suffer any serious injuries and the 22-year-old male suspect was arrested. The suspect has been charged with assault and must now stay away from the victim and abstain from the consumption of alcohol.

At 2 a.m. on Sept. 4, Elk Point RCMP and Bonnyville EMS attended a residence in Fishing Lake after receiving reports of a large brawl. When members arrived, five adult males were found to require minor medical attention. It is alleged that a fight started between two males at a party. As the fight progressed, other people began to jump in. At one point, it was believed that 10 people were involved and some started throwing beer bottles into the melee. All of the

involved parties have been identified and no one wished to have police involvement. Alcohol played a factor in the occurrence.

On Sept 4 at 4:30 a.m., Elk Point RCMP were called by a female in Fishing Lake who had been assaulted by a group of females while at another residence. When members spoke to the victim, she decided not to pursue any criminal charges against the group of females and no longer wished to have any police involvement. Shortly after speaking with the victim, members were called to the occurrence residence because associates of the victim had gone there to exact revenge. Two suspect females assaulted the occupants of the house, not knowing they had no involvement with the original assault complaint. Alcohol was a factor in this occurrence. None of the parties who were assaulted in this matter wished to pursue criminal charges.

On Sept. 9 at 10:30 p.m., Elk Point RCMP were dispatched to an assault at a residence in Frog Lake. Interestingly enough, the man calling the police was the suspect who committed the assault. He said that he wanted to turn himself in. Members attended and arrested the male without further incident. It is alleged that the male attended the residence of the female victim and assaulted her when he was told to leave. The victim was not injured. The 26-year-old male suspect has been charged with assault, failing to comply with conditions of an Emergency Protection Order and uttering death threats. He has been remanded into custody and will appear in St. Paul Provincial Court.

At 3 a.m. on Sept. 10, Elk Point RCMP and EMS were dispatched to a residence in Frog Lake. An adult male wandered into the residence with serious wounds to his upper body. The male told residents that he had been assaulted at

a bar in Lloydminster approximately six hours before. The male victim would not cooperate with police and details about the alleged assault are not currently known. The investigation has been turned over to Lloydminster RCMP and is ongoing.

On Sept. 12, Elk Point RCMP received a complaint regarding an assault that happened the day before. It is alleged that the 15-year-old victim was assaulted by the 16-year-old suspect while walking through the field north of F. G. Miller High School. All involved parties and witnesses have been identified and investigation continues.

Disqualified drivers

During the nights of Sept. 4 and 9, Elk Point RCMP located two suspended drivers. Both of the vehicles were stopped for equipment violations when it was determined that the male drivers were suspended. Both males were issued violation tickets and must appear in St. Paul Provincial Court to face charges of driving while disqualified and driving unregistered/uninsured motor vehicles. Both of these vehicles have been seized for 30 days.

Fireworks

During the summer the Elk Point Detachment averaged at least one complaint per week of Elk Point residents using fireworks. The complaints were received after neighbours were disturbed by fireworks being set off during the night. Members identified and spoke with most of the individuals who were setting off the fireworks. Please be advised that there is a fireworks bylaw in the town of Elk Point. Anyone who wishes to use fireworks within the town limits must first seek approval from the town office. Should any questions arise regarding this bylaw, please contact the Town of Elk Point or the Elk Point RCMP Detachment.

Council passes new bylaws

(Continued from Front Page)

Fire services agreement

A proposed fire services agreement between the town and the County of St. Paul was brought to council.

Town manager Myron Goyan said he and county CEO Sheila Kitz have gone over the document and would now like town council to look it over. Council, however, agreed that the fire board should look at it and give their recommendations first.

Tax exemptions

Council requested a change of wording in the legislation dealing with tax exemptions on new buildings. They agreed that this should read, "for the year

construction starts and the year after" rather than "the year the development permit is issued and the year after."

RCMP statistics

Sgt. Brad Lazicki and Cpl Kevin McGillivray of the Elk Point RCMP reported that Elk Point's case load has dropped, sending the detachment from the 24th busiest in the province to the 33rd busiest. They also reported that charges have been laid against two individuals regarding the recent

rash of vehicle break-ins. Coun.

Dwayne Yaremkevich noted that he was among the victims who lost items from a vehicle. A problem with the parking of school buses where they blocked vision of oncoming traffic has been dealt with.

Mayor Parrish Tung told the RCMP he hopes to have more volunteers sign up for the Citizens on Patrol program and noted that while some people he had talked to were not willing to commit to COPS, but would be willing to be part of a Neighbourhood Watch.

Setup date not set

During discussion on the Recreation Committee meeting, it was noted that no date has yet been set for installation of the water spray park, and that site preparation is waiting on receipt of the required dimensions.

Subdivision Service Changes at the County of St. Paul

In an effort to serve the landowners of the County of St. Paul better, effective October 1, 2010, all subdivision services will be completed by the County of St. Paul. If you are thinking of subdividing your land, come into our office today to learn about the process and discuss options that may be available to you.

If you are currently subdividing your land and have applied with Municipal Planning Services (Alberta) Ltd, there is no need to re-apply. Your subdivision will continue to be processed by Municipal Planning Services until December 31, 2010 when it will be transferred to the County of St. Paul.

EcoCentre drawing interest

By VICKI BROOKER
Review Staff

Elk Point's Tourism Information EcoCentre is "proceeding as planned," Bob Bezpalko told chamber of commerce members at their first meeting after the summer break. "The wind and solar (power) production is being tracked and it's doing well."

The wind turbine and solar array, he added, "are billboards attracting people into our town. It's working."

The train station replica and its energy-producing components "can be treated as a novelty," Bezpalko said, "or we can take it to the next level." He would like to see a weather station added to the mix to collect additional data, and would give Elk Point the capacity provide data to both their website and the television weather network, possibly in conjunction with a web-

cam showing current conditions.

At this point, however, "we've gone as far as we can on our own" and need to work with partners who would also find the data useful. To that end, he has been in contact with an educational institution that has shown interest in the project.

As Elk Point's economic development coordinator, Bezpalko is also working on ways to attract new customers for local suppliers of everything from fresh baked goods to roof trusses, to see new businesses take the place of older downtown buildings, and to enhance Elk Point's airport to increase potential use.

"It's all under the heading of business retention and expansion," he noted.

Chamber president Sandy Smith thanked Bezpalko and Town Coun. Dick Millar, who volun-

teered along with Sheila Viel, Natasha Scott, Mayor Parrish Tung and Mae Hendrickson to help her lay sod at the Eco Centre recently. "It went quickly," she said of the work bee that put the lush green lawn in place on the north, south and east sides of the structure.

The miniature version of the EcoCentre is drawing considerable interest, Smith said. She and Lesia Porcina took the playhouse to the Vermilion Fair and sold over 200 tickets there. It was noted that the raffle also includes two cash prizes, and draws will be made at the Nov. 26 Christmas Extravaganza.

No volunteers, no Extravaganza

Extravaganza planning will get underway this week, with a meeting at 6:30 p.m. tomorrow at the EcoCentre. Smith and two

fellow members have been responsible for a large portion of the planning for six years, and is adamant that, "If we don't get volunteers, we three are not doing it. But, I did get two new people signed up at Information Night, so I think it will be a go."

FCSS director Deanna Easthope noted that a new policy put in place at F. G. Miller Junior/ Senior High School means that students must volunteer to get part of their marks for the semester, the number of hours determined by their grade level. This could be a potential source of workers for Extravaganza, she said.

An itemized list of all the tasks that make up the annual pre-Christmas event was suggested by Melanie Poulin, "then people can sign up for what interests them."

Election forum

With the number of potential mayoral and town council candidates yet undetermined, the chamber is ready to host a town candidates' forum on Oct. 13 at the Seniors' Recreation Centre, with Bezpalko agreeing to serve as moderator.

Mayor Parrish Tung and Economic Development Officer Bob Bezpalko place strips of sod.

EDITORIAL

Farm safely this harvest

A near tragedy that left an elderly farmer near Edmonton trapped in his combine for many hours has awakened us all to the need for safety at harvest time.

In the USA, this week is Farm Safety Week, but safety is equally important on both sides of the border.

Harvest is a stressful and exhausting time at best, and in years like this, when weather has delayed the procedure and farm families must make the most of every possible window of opportunity, everyone feels the need to work even harder and longer hours to get the job done.

Late nights, rushed meals, stress, the cost of repairs and fuel, the difficulty of finding help with the necessary skills and taking older children out of school classes to operate machinery all add to the potential for mishaps.

While we know it is far easier to say than to do, please try to get adequate rest, eat nutritious meals and take adequate time to make needed repairs properly this harvest season. The last thing we want to see on our front page is a story about a tragic farm accident in a season that should be filled with triumph on the farm front.

Way Back When...

Field Force, Fox runs, Frog Lake

HERE'S THE NEWS THAT MADE THE HEADLINES OF THE LAKELAND REVIEW AND ELK POINT REVIEW FOR THE WEEK OF SEPT. 21 IN...

1985

The Northern Alberta Health Unit Nurses, on strike since April 1, picketed outside Elk Point Municipal Hospital to raise awareness of their concerns. Alberta Field Force II rode through the area following the route taken by the Steele Scouts in 1885, from Fort Saskatchewan to Frenchman's Butte, Sask., en route to the Northwest Rebellion.

1990

Readers logged 3,450 minutes on the books in a Read-in Challenge, with 176 students at F. G. Miller High and 54 readers of all ages at Elk Point Public Library taking part in the 15-minute event, with Elk Point Elementary School unable to take part due to construction of their new library. Alberta Council on Aging's Crystal Ball Conference was held in Elk Point, with an emphasis on the future of seniors' housing. 1995

1995

Runners, walkers and cyclists raised \$3,489 in the Terry Fox Run, with top fundraiser Peggy Maas raising a whopping \$1,215. Town councillors Mae Hendrickson, Dave Yake, Louis Verhagen, Danny Povaschuk, Ron Smith and Bill Schuhmacher were returned by acclamation, but no mayoral candidates had been found by press time.

2000

Half a hundred people interested in the area's part in the 1885 Northwest Rebellion gathered at Frog Lake Historic Site to get a new perspective on the tragedy that occurred there, with local historian Bob Hendriks leading a tour of the site and Frog Lake resident Ted Quinney relating some less-known history about the situations leading up to that fatal day. Representatives of Anadarko Canada Corporation visited the chamber of commerce meeting and were urged to hire locally and buy locally whenever possible.

2005

Small cancer survivor Cassandra Glambeck and her schoolmates raised \$570 with the Heinsburg Community School's Terry Fox Run, with Cassandra explaining, "We're raising money so they can find a cure for cancer for people like me." Elk Point and district enjoyed one-stop information shopping at the community Information Night.

GUEST COLUMN

The hats are in the ring

Yesterday, all those persons who had a desire to run for municipal electoral positions turned in their "papers". In other words, they threw their "hats in the ring", as the saying goes. Now, let the rest of us check out why they threw their hats in the ring. "To throw my hat in the ring" is an American phrase that means to enter a competition, especially to announce your representation for a political post. The phrase originated way back in the early 19th century. The 'ring' pertains to a boxing ring or any other ring in which a competition is to be fought. Throwing your hat in the ring is a way of announcing that you are ready to take on anybody from the crowd. The first use of the phrase was reportedly in the year 1912, when Theodore Roosevelt declared his intent to conform William Howard Taft for the battle of the US presidency.

deanna
EASTHOPE
from the FCSS desk

Speaking of throwing your hat in the ring, I recently learned that our local high school Phys. Ed. teacher who is asking the students to earn "leadership hours". If the student is in Grade 7, they are to do up to a total of seven hours; if the student is in Grade 8, then the hours will total up to eight, etc. All of this becomes part of their Phys. Ed. mark. The students are being asked to become involved in school activities and help out in volunteer ways. This also is extended outside of the school. Students are being asked to find ways to help voluntarily where needed with community groups. They just need to ask what they can do to help. This is a really good concept and I would like to say a big thank you to this teacher for encouraging the students to do something that helps others. Volunteering not only works for those receiving help but also for those who do different kinds of volunteer acts. When we volunteer our time for a good cause; the rewards we reap are great. As we become open to our surroundings and really observe what goes on around us, we soon learn we can do something that will make a difference just because we did something.

The Elk Point Review publishes a variety of opinions as a contribution to debate on matters of public concern. Unsigned editorials express the view of this newspaper's editorial board which includes the Publisher and the Editor. Signed pieces express the view of the individual writer.

There is a story I loved about the geese. This time of year we will be watching them as they take flight. It is interesting to watch them become involved with each other. All of them are throwing their hats in the ring. As the geese take flight from Canadian shorelines they lift off from water in squawking discourse. Yet in a matter of seconds, a line

begins to emerge from the mass of brown feathers. The line straightens, arches slightly, and then as on cue, bends sharply to form a perfect V shape. Canada geese fly in V formation for a very pragmatic reason: a flock of geese flying in formation can move faster and maintain flight longer than any one goose flying alone. Synergy is a law of nature. What is synergy? How does it

relate to leadership? Synergy is best explained as 'one plus one equals more than two'. In other words, influence by one is hard to measure for each one is exercising leadership in their own way, and together that is more than two.

This is all best explained by the goose story. As each bird flaps its wings, it creates an uplift for the bird immediately following. By flying in V formation, the whole flock adds at least 71% greater flying range than if each bird flew on its own. When a goose falls out of formation, it suddenly feels the drag and resistance of trying to go it alone and quickly gets back into formation to take advantage of the lifting power of the bird immediately in front of it. When the Lead Goose gets tired it rotates back into the wing formation and another goose flies in the point position. Geese honk from behind to encourage those up front to keep up their speed. Finally ... and this is important ... when a goose gets sick or is wounded by gunshots, and falls out of formation, two other geese fall out with that goose and follow it down to lend help and protection. They stay with the fallen goose until it is able to fly, or until it dies; and only then do they launch out on their own, or with another formation to catch up with their group.

So if you are a political candidate who has thrown your hat in the ring or a high school student who has thrown your hat in the ring to do some hours of volunteer work, thank you and best wishes. May the rest of us get involve and help you accomplish what you have thrown your hat in the ring to do. Let us all remember the goose story. Yes, each one of us matters to the other.

Damage done to county reserve lands

By SHAUNA BURKE
Review Contributor

An inspection by a bylaw enforcement officer this spring determined there has been extensive environmental damage done to municipal reserve lands, environmental reserve land and Crestview Beach, County of St. Paul council heard at its Sept. 14 meeting.

The removal of trees and other natural materials resulted in two trails leading down to the water, which has the potential to increase erosion of unwanted materials into the lake. When contacted about the damage, the two current landowners claimed the damage was done by a third individual who has now sold the property and moved out of the area.

County council debated the possibility of requesting an RCMP investigation, initiating legal action against the landowner or repairing the property themselves. According to an inspection by Kenton Miller of Kenton Environmental, it would cost about \$13,500 to repair the area to create a public access route, which would allow pedestrian traffic but not vehicle traffic, while it would cost about \$20,000 to restore the land completely to an almost original condition.

After reviewing the options, council decided that the most cost effective and efficient solution would be to proceed with repairs to the area.

"The problem is the environmental concern, so if it's not remediated in some way and something happened because it's on county property, it would be a liability," explained Coun. Maxine Fodness. "Perhaps you should go and see the area before we make a decision."

Council tabled the matter to allow time to visit the area and take a look at the area to see the area prior to making a decision.

Speed limit

Coun. Frank Sloan said he felt that council should continue to press the province to change the speed limit along Hwy. 28 near Ashmont School and near the intersection with Hwy. 36 from 100 km/hr to 80 km/hr.

"There was an accident there a couple weeks ago again. With all the curves and the hills there is poor visibility," explained Sloan.

Reeve Robert Bouchard agreed that the issue should be brought up with Luke Ouellette, Minister of Transportation.

Mallaig Beach

Jay St. Arnault of the Mallaig Chamber of Commerce made a presentation to county council about a project that the chamber wants to undertake for Mallaig Beach.

"We would like to clean our beach to the water's edge," said St. Arnault. "We hope to attract more visitors to our campsite and we feel that having a useable beach is the first step."

He said that while Mallaig's campsite is often busy on the weekends, the chamber would like to increase day use of its beach and hold special events such as a sandcastle building contest or a barbecue at times.

"We are very community-minded and a family-oriented community and we feel that we have a park that will be appreciated by members of our community and by many visitors," said St. Arnault.

He explained that Parks Alberta has water rights at Mallaig Beach, but that it supports the proposal to clean up the beach. Since the County of St. Paul has environmental reserve land on either side of Mallaig Beach, St. Arnault requested council to acknowledge and approve the chamber's work to clean up the beach, while leaving the borders of the environmental reserve area well protected.

HIGHLIGHTS

September 14, 2010 Council Meeting

Applied Land Use Planning Certificate – CAO, Sheila Kitz has successfully completed the Applied Land Use Planning Certificate through the Government Studies Program at the University of Alberta.

E-911 Service – After meeting with the 911 Dispatch Division of the Bonnyville Regional Fire Authority and the St. Paul and Elk Point fire committees, Council has agreed to switch over from the Strathcona 911 service to the Bonnyville 911 Dispatch Service. The target date for the switchover is January 1st, at which time the Rural Addressing numbers will be tied into the telephone numbers for land lines.

IDP Public Meeting – In response to the feedback received from ratepayers at the IDP Public Meeting on September 7th, County Council has requested the Town of St. Paul to come back to the table to revisit some the concerns brought forward by the ratepayers.

Planning and Development – We are streamlining our Planning and Development functions. The department has been consolidated in our organization under the management of Dennis Bergheim. Krystle Fedoretz is our new Planning and Development Officer along with Crystal St. Arnault as Planning and Development Clerk. Council has appointed Dennis Bergheim and Krystle Fedoretz as Subdivision Authorities as well as Krystle Fedoretz and Crystal St. Arnault as Development Authorities. We look forward to providing an increased level of service to our residents.

Bylaws – The following bylaws were passed by Council and have been posted on the web-site:

- Bylaw No. 1553 – Establish Development Authority
- Bylaw No. 1554 – Establish Subdivision Authority
- Bylaw No. 1555 – Establish Fees for Subdivision Process
- Bylaw No. 1542 – Lac Sante ASP
- Bylaw No. 1552 – Rezone PNE 19-58-9-W4 from Ag to CR

Sale of former Lafond School Property – The former Lafond School Property (Lot A, Block 1, Plan 4339KS) which is jointly owned by the County of St. Paul and St. Paul Education Regional Division No. 1, will be listed for sale for \$50,000 with Coldwell Banker.

Regional Food Processing Facility – Community Futures has begun an initiative to explore the viability of a Regional Food Processing Facility on the Portage College Campus for provincially inspected food processing and packaging. The County has agreed to become a partner to fund this business viability study.

Clean up notices – Several orders were issued to residents throughout the County to clean up their unsightly properties and return them to a clean and tidy manner. Most landowners have complied with the orders and remediated their property. Administration is looking at further action on those that have not been cleaned up. Clean up notices are issued in response to complaints received from the public.

Mallaig Chamber of Commerce – Council is pleased to support the Mallaig Chamber of Commerce in their endeavor to obtain authorization from the necessary government departments to clean the public beach area at the Mallaig Beach campsite. The land is owned by the Province and leased by the Mallaig Chamber of Commerce. The Chamber is proposing to pull the weeds and disk the sand in an area approximately 125 feet wide and up to the water's edge so the beach is in a usable state.

Intersection at Hamlet of Ashmont and Highway 28 – Council would like to see the speed limit along Highway 28 from the intersection of Highway 36 east past the entrance to the Hamlet of Ashmont lowered from 100 km/hour to 80 km/hour. Administration will arrange a meeting with the Honorable Luke Ouellette and MLA Ray Danyluk at the AAMD&C Convention to discuss lowering the speed along this stretch of highway.

Environmental Damage at Crestview Beach – Council will be inspecting the damage that was done to the Municipal Reserve and Environmental Reserve land at Crestview Beach before they decide if they are going to remediate the property or proceed with a Statement of Claim.

Mallaig Museum – will be installing a chain link fence around the perimeter of their property. The County will pay the contractor for the entire perimeter fence and the Mallaig Museum will reimburse the County over a five year period for all except the 300 metres along the north side of their property. When the Mallaig subdivision was approved in 2008, the County agreed to pick up the cost of the fence along the north side of the museum in exchange for the land that was removed from the museum's lease.

Buildings on Municipal Reserve Land – Unauthorized buildings on Municipal Reserve property has been an ongoing issue in the County of St. Paul. Council made a motion to withdraw a motion made in 2008 that required Administration to do an inventory of all unauthorized buildings on Municipal Reserve in the County. Administration is requesting the authority to deal with these issues on a complaint basis. The item was tabled to the October meeting pending information on recommendations to address the unauthorized buildings.

St. Paul Recreation Board – The County of St. Paul would like to welcome Janna Zarowny as their representative as a member-at-large on the St. Paul Recreation Board.

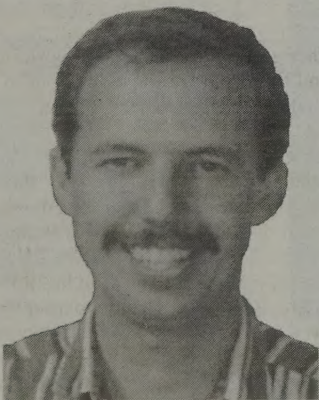

Conferences/Seminars – Staff members were approved to attend the following conferences, seminars and courses:

- Alberta Municipal Affairs – Minutes/Agendas/Policies/Procedures – P. Corbiere
- Workplace Conflict – D. Weinmeier
- Negotiating Effectively – S. Kitz
- Alberta Development Officers Assn. Conference – K. Fedoretz
- Finding Agreement – S. Kitz
- Public Input for Planners – K. Fedoretz
- Group Facilitation – K. Fedoretz

BEN DYCK FOR ST. PAUL COUNTY REEVE OCTOBER 18, 2010

VOTE BEN for a POSITIVE CHANGE

Ben has run a heavy equipment construction company for 10 years in our county. This involves running large contracts efficiently, handling budgets and employees as well as working with other contractors on the same project.

Ben would like to see:

- Local contractors hired to do work for the county
- A county that is responsive and respectful to all ratepayers.
- Competitive tax rates with neighboring municipalities.

**BEN HAS THE TIME, ABILITY AND
DESIRE TO WORK FOR YOU!**

Meet and greets are being arranged throughout the county.
Check next week's paper for locations, dates and times.

Walk of Hope

Ten-year ovarian cancer survivor Carla Vinge (second from left) took part in the Ninth Annual Winners Walk of Hope on Sept. 12, and was joined in her efforts by sister-in-law Leanne Vinge, sister Christy Watkins and friend Jayme Loge. The Winners Walk of Hope raises money for Ovarian Cancer and from Vancouver to Moncton to St. John's, survivors and supporters came together as a team to raise more than \$2.3 million to help raise funds, and the books haven't closed yet. Donations are still being accepted and will be until Ovarian Cancer Canada's \$2.5 million goal is reached.

Submitted photo

OORP mark milestones

Perfect attendance and service pins were presented to Elk Point Order of Royal Purple members last week. From left to right are Brenda Diesel - one year perfect attendance, ive years service; Verna Lazicki - 15 years perfect attendance; Lena Stepa - 34 years perfect attendance, 40 years service; Lois Yaremkevich - 18 years perfect attendance; and Lil Buksa - 31 years perfect attendance, 40 years service. Not present were Lois Sharek, who qualified for 32 years of perfect attendance and Jeannine Boratynec, five years service.

Things happen at Elks Lodge!

By **LAWRENCE PIDLUZNY**
Elk Point Elks Lodge

Our new Elk Point Elks Lodge #460 term has begun with a bang! Following are some of the activities that have taken place over the past few weeks.

Our Wilderness Lake Park at Kehewin Lake has been shut down for another season. We had a great year with many repeat and first-time visiting campers. The new playground has been quite a hit with the kids. Wood was also made available at a good price. We appreciate all who camped, and all the Elks who looked after the facility.

Travel

Bernadette Godlien was re-elected as our District Deputy, and it didn't take us long to get into the travel fever. So far, we have made trips within our district to Myrnam, St. Paul and Vegreville, with Lac La Biche and Hairy Hill Lodges to be visited over the next week or so. We also visited Sherwood Park and Rosalind Lodges as inter-district travel. Walter Jendruck and Bernadette Godlien also represented our Lodge at the recent Grand Lodge Convention in Yellowknife. There is a lot more travel still to come.

(Continued on Page 9)

NLLS 'Continuing to evolve' after 20 years of service to NE Alberta

(Continued from Front Page)

During nearly a year of renovations, "the staff did not stop work or take holidays. They didn't skip a beat, but they may have

skipped slower sometimes," Panciuk noted. Brigitte Sakaluk became the project manager, agreeing to forego holidays for a year and a half, "and executive assis-

tant Patty Mathiot became the de facto project manager. She kept all that was said at meetings for posterity and kept everyone in line."

Tiedemann presented

gifts to Sakaluk, Mathiot, members of the building committee and those involved in the construction process.

One of those honored was Audrey Dutka, Danyluk's executive assistant. "Audrey took on the responsibility and it tuned into a passion. She worked tirelessly," Danyluk said as he related his thoughts on the project.

"The premier wants buildings that work for students, patients and those who work there, so we need to get the community involved. We do not want to end up with buildings that look good but don't work."

Danyluk introduced Goudreau, and said was instrumental in the creation of the Arts and Leisure Centre. "He knew we needed a place that would work for the community and also support the importance of libraries."

Goudreau acknowledged that his initial impressions of the future included doubts, but now, "the importance of this building will manifest itself over the coming years. I congratulate Mircea and Larry on their vision, in a community

where you would never expect to find something like this. It's my first time back and I am certainly impressed with what I see."

The library system "certainly has a great deal to celebrate," Goudreau continued. "They have a legacy of two decades of exceptional service to a diverse population, the second largest library system in Alberta,

and are continuing to look to the future."

Guest speakers for the opening dinner were Ernie Ingles, vice provost, chief librarian and interim director of the School of Library and Information Studies at the University of Alberta and Punch Jackson, retired director of Public Library Services for the province.

Vicki Brooker photo

Dignitaries at Thursday night's conference opening ceremonies included (left to right) Northern Lights board chair Larry Tiedemann, Minister of Municipal Affairs Hector Goudreau, NLLS director Mircea Panciuk, guest speaker Punch Jackson, Minister of Infrastructure Ray Danyluk and Peter Crerar, former Assistant Deputy Minister of Municipal Affairs.

Vicki Brooker photo

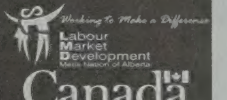

Northern Lights headquarters staff and their mascot bear were up for some monkey business on Friday night at the fourth annual Book Cart Races, when they donned their grass skirts to become the Jungle Mamas in a successful bid for the championship, overtaking the fancy footwork of the Lac La Biche Bookies and the somewhat misguided efforts of the NLLS Executive Evolutions in what judging team spokesman Myron Goyan said "was the easiest year yet. The entries went from excellent to terrible."

INTERESTED IN A CAREER IN THE ENGINEERING FIELD? MÉTIS ENGINEERING TECHNOLOGY TRANSITION PROGRAM

Métis Youth participants will be provided with personal development, employability skills and academic upgrading in Math, and Physics necessary for a post-secondary engineering program. Upon successful completion of the program, you will have the minimum entry requirements to apply to a full-time engineering related program at NAIT.

Program Runs October 18th - May 20th, 2011
Application Deadline - September 30th, 2010

Call 1-888-48-MÉTIS (1-888-486-3847)
online at: www.metisemployment.ca

A REWARDING CAREER IN ACCOUNTING AND MANAGEMENT AWAITS MÉTIS ACCOUNTING & MANAGEMENT TRANSITION PROGRAM

Métis Youth participants will be trained in personal development, employability skills and computer software, and will receive academic upgrading in Math and English — Everything you need to apply to MacEwan University's full time Accounting Technology, Accounting and Strategic Measurement or Management Studies Program.

Program Starts November 1st, 2010
Application Deadline - October 11th, 2010

Damage done to county reserve lands

(Continued from Page 5)

Council voted to support the work of the Mallaig Chamber of Commerce.

Community Gardens

A presentation by Sheila Parks and Jana Dechaine, board members for the Community Garden Project, highlighted this year's achievements.

"If it wasn't for the county's support, we would not have managed to get this far because thanks to the county, we were able to secure the CIP (provincial) funding," said Parks. She said that the project helped to increase food security for people, but even more importantly, it had an emotional and social impact on families.

"My son has allergies so we eat all the food grown in our garden," said Dechaine. She explained that because of the garden, stronger bonds have developed between her father and her boys.

Parks said the board is looking forward to finding a more permanent home for the gardens and have some new ideas about expanding the program.

Mallaig Museum

In a letter, Mallaig Museum's council requested that the county build a fence around the entire perimeter of the museum area. The County would be responsible for the cost of the fence along the south side in exchange for some land, while the museum council stated it would re-pay the costs of the other three sides of the fence, but asked if its payments could be interest free for five years.

County CAO Sheila Kitz explained to council that the estimated cost of the project is about \$35,900, with the county responsible for \$14,400 of those costs, leaving about \$21,500 for the museum to repay.

"A lot of these community groups don't have the money to pay for these things up front," said Coun. Cliff Martin. "I think it is our responsibility to help them out."

Council approved a motion to pay for the fencing up front on the condition that those costs would be re-paid over the next five years.

Mann Lake Fire

Council denied a request for compensation for damaged incurred by Lakes Ranch Ltd. as a result of the Mann Lake Fire.

Council decided to deny the claim as it was felt that the County of St. Paul was not in any way responsible for the fire and in fact provided a service by helping to put out the fire.

Kehewin Community Education Centre starts new school year

By VICKI BROOKER

Review Staff

"The school year is upon us" Kehewin Community Education Centre's new principal, Alan Pogson says, with students returning classes as of Aug. 30. "While we have well over 200 students registered, we continue to have new students coming in every day."

While he's pleased with the growing enrollment, Pogson is a bit concerned that some students are missing the first days or even weeks of school.

"We all know how

important school is to the future of our children, but it is also very important that they begin the year on a good note, coming every day and beginning to acquire that knowledge right at the start of the school year.

"Therefore to acknowledge those students who come to our school every day, and have done so from the start, and to encourage those who have gone off-reserve to try other schools to come back to Kehewin, we are planning ways to show our appreciation."

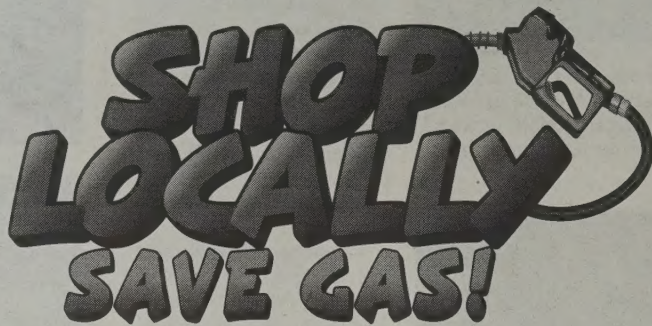

Kehewin's schools, both elementary and junior and senior high, are firm in the belief that "we have a highly skilled, dedicated and professional staff who truly care about the future of our students," Pogson says.

"Our staff is all involved in extracurricular clubs, teas and committees dedicated to making school life fun and interesting as well as educational."

The schools are planning to implement a quarterly awards and supper celebration for their students, with acknowledgement for academic achievement, attendance, leadership, improvement, Cree and cultural courses, athletics, volunteerism, creativity, good conduct and citizenship, and the showing of respect for others and the environment.

Awards will include items such as laptops, ipods and disc players. However, Pogson says, to be eligible, students must be registered and attending KCEC full time by Sept. 30.

He encourages Kehewin youth to "experience a positive school and learning environment where they can have some fun and take part in teams, clubs, an annual high school trip and extracurricular activities. You might even get a chance to be rewarded along the way."

NLLS librarians urged to let out inner divas

By VICKI BROOKER
Review Staff

The Northern Lights Library System library staff who attended Friday morning's session with F. G. Miller High School's irrepressible Miss Lilly may never see their duties in quite the same way.

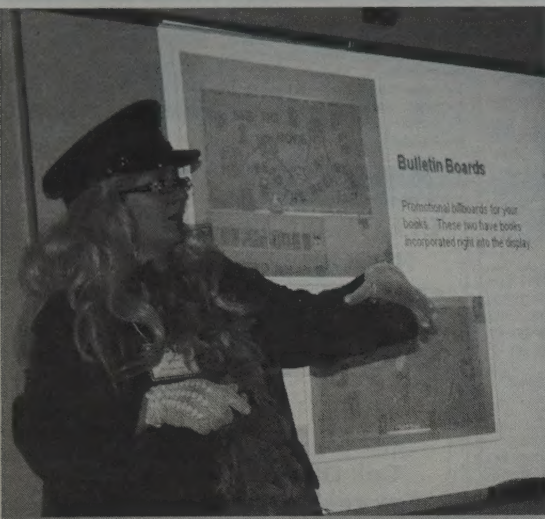

The bodacious blonde bombshell had them laughing at a her reading of a children's story book, trying on her hats and feather boas, and singing karaoke in no time, all the while demonstrating how she encourages students to come into her formerly staid and solemn library and to fill it with enthusiasm and innovation,

Presentation, in the form of "pods of prominently placed

books," plants, and an atmosphere that makes patrons "feel comfortable and at home, reading in the lap of luxury" were among Miss Lilly's keys to success.

A "power letter" that she sent to businesses yielded \$27,000 for library upgrades in two years, and helped to finance changes that made the library more welcoming to the students, as well as adding features such as a pull-down screen that allows the showing of movies and the famous Karaoke Fridays.

"You can be pleasant, perky or peculiar, but wear some classy threads and bling yourself up," the high school's only southern belle suggested. "Don't be afraid of change - embrace it!"

Things are happening at Elks

(Continued from Page 6)

Bingo changes were inevitable. As proceeds from bingos continue to decline, the Elks had to make a few changes to the games structure. We will not be selling gold cards for the time being but have raised the regular card prizes. When attendance increases to previous levels, these gold cards may be reinstated. We resumed our weekly bingos as of Thursday, Sept. 2.

Support for children

We welcome the St. Paul Education Regional Division #1 Outreach School to our Peter Fidler Center. We hope the facility is sufficient for their use for as long as required. This year, the Jack and Jill Playschool will inhabit the basement of the Elks Community Hall while the Play 2 Learn after school program will use the upstairs. The Elks will also donate towards the Institute for Stuttering Treatment and Research 'Fast Fund' which will help less fortunate children pay for ISTAR services.

Awards and scholarships.

The winner of the Steve Kuziw Memorial Sports Award for this year was presented to Taylor Jenner while the Elmer Bjornstad Scholarship went to Alyxandra Aarbo, both graduates of the F. G. Miller Jr/Sr High School. Congratulations! We will

also be supporting the F. G. Miller Jr/Sr High School and Elk Point Elementary School Awards Nights.

The Elk Point Heritage Lodge Auxiliary will receive a new wheelchair to replace one purchased by the Elks several years ago.

Our lodge's 50th anniversary celebration will be held April 30, 2011, and preparations are getting underway for that.

Finally, we again wish to urge interested Elk Point

and district residents to join our organization. We are a national, fraternal, and charitable organization promoting and serving community needs through local lodge volunteers, but we also find ample time for fellowship and socialization. If interested, please call President Michael Chubey at 780-724-3128 or Secretary Lawrence Pidluzny at 780-724-4339 for membership information.

A Special Thank You

To everyone who donated pledges, supported and participated in making

GRANDPARENTS DAY CELEBRATION such a success!!

THANK YOU TO OUR SPONSORS:

Town of Elk Point * County of St. Paul * SR Rentals * Lakeland Tire * Bumper to Bumper * Elk Point Pharmacy * Ron & Sharon Smith * Golden Loaf Bakery * Mooswa Holdings * Mom Cream & Sugar Cafe * Magic Pizza * Lucille & Al Smith.

A special appreciation for Rollie Poitras; his family and friends for a wonderful afternoon of music and dance and to Corbin Poitras, who drove from Edmonton, to honor his grandpa Homer, keeping his spirit alive and well. To Bernice Capjack for coordinating the school project and Gail Gagne who brought all of the pictures and histories of our grandparents living in Heritage Lodge.

Thank you again, from the Grandparents Coordinating Committee.

Bengals win in away game against Bonnyville Bandits

By GREGORY YAPP WITH FILES
FROM BONNYVILLE NOUVELE
Review Contributor

The St. Paul Lions won their football game against the Athabasca Pacers at EPC field in Athabasca last Friday in a decisive fashion.

The final score was 69-20 for the Lions, thanks to the Lion's offence, which was outstanding, according to Lions' defensive coach, Todd Tanasichuk. "Our offensive line was absolutely outstanding ... our offensive line dominated out there."

The game started with the Pacers scoring first by the fourth play of the game, which prompted the Lions to answer right back, said Tanasichuk.

"We were down 0-7, and we needed our offence to perform, and they did," said John Lumby, the Lions' offensive coach.

After the Lions tied the game at 7-7, the Pacers scored again, which was promptly answered by the Lions' offence, bringing the score to 14-14 in the first quarter.

"Defensively, our intensity was low coming out," said Tanasichuk, adding, "We weren't in the right mindset. (Our offense) kept us in it for sure."

In the second quarter, the Lions' defence came together in shutting down the Pacers while the Lions' offence continued to dominate by scoring seven more touchdowns - one of them from Phillippe Bergeron's punt return. "Before we knew it, the game was a blowout, with a half-

time score of 49-14," commented Tanasichuk.

The Lions went on to score three more touchdowns in the second half of the game, thanks to the younger members of the team, such as Dominic Dion, who completed an interception return for a touchdown in the third quarter. He led the Lions to two more touchdowns as their quarterback during the second half.

"Dion is a really good athlete; he's been working out," said Lumby. Lumby went on to say that Dion is gaining confidence, learning quickly, and that he is only going to get better.

This is also the first season in Tanasichuk's 11 years of coaching that the team had all five starting offensive linemen returning. "It is a real advantage for us," said Tanasichuk. "Zach Machura, Donovan Whitnack, Sky Pasquayak, Landon Ozga and Colton Hymanyk ... are the major reason why our offence is doing so well."

The Lions will play a home game against the Grand Centre Royals this Friday at 5 p.m. "In order for us to go to provincials, we have to beat Grand Centre Royals, and it's usually a hard-hitting, fast pace football," commented Tanasichuk.

"We're taking it very seriously. It's a rivalry and a war (against Cold Lake)," explained Lumby when asked about the Lions' next game. "We are going to give it everything we got to win that game."

Lions defeat Pacers

The Lions will play a home game against the Grand Centre Royals this Friday at 5 p.m.

Arena cleanup continues

Many hands made light work of cleaning up A. G. Ross Arena's bleachers and plexiglass last week, as a large crew of young volunteers took part in a general scrub-down of the facility in preparation for the coming skating and hockey season.
